DETAILED ACTION

Allowable Subject Matter

Claims 1-2, 4-10, 12-37, and 100-126 are allowed.

The following is an examiner's statement of reasons for allowance: independent claims 1, 100, and 111 recite the use of a ticket and a viewer used in combination to define a dynamic thumbnail in a system providing peripheral awareness of contact availability status. Specifically, applicant's claimed "ticket which defines the entity and a viewer for displaying the ticket" are not taught by the cited prior art. The most relevant cited prior art, Barrus (US Patent 6,693,652) fails to teach such a ticket/viewer combination. A further search failed to produce any relevant results.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
